Gas Tapping Column

Gas tapping column (GES) with ball valves, but without armatures are used for gas supply to several welding places up to 4x3 gases.
The column is equipped with 4 pcs. of tapping point regulators and each 4 pcs. of DGN flashback arrestors for fuel gas, oxygen and intert gas.
Hoses and welding devices are available on request.

Designation		Art. No.	Price	PG
GES	4x 3 Tapping Points	3002-0002	3.580,00 €	171

Gas Distributor

Gas distributor (GEV) with ball valves, but without armatures are used for Oxygen or Fuel Gas supply to 5 welding places at construction sites. Working pressure: 20 bar.
Tapping point regulators and safety devices available on request.
